## **COMPREHENSIVE INTEREST SCHEDULE (CIS)**

Assessing subject's Interest using CIS.

Subject : Date :  
Age : Sex: Time :  
Referral : Class :

**Instructions:-** “In this schedule you are asked to express your preferences for different occupations. These occupations are given in pairs and you are asked to check them to indicate your preferences. This is not a test of intelligence or special abilities. You just have to mark your responses in each box, considering both the occupations irrespective of the income or status involved in it. Draw a circle around 1 if you prefer the first in the pair of occupations. Draw a circle around 2 if you prefer the second in the pair of occupations. Draw a circle around both 1 and 2 if you like both the occupations. Cross out both 1 and 2 if you dislike both of them. Ask if anything is not clear. Do not turn the page until told to do so”.

**COMPREHENSIVE INTEREST SCHEDULE**

Name: _____	Date: _____
Age: _____	Education: _____

**INSTRUCTIONS**

In this schedule you are asked to express your preferences for different occupations. These occupations are given in pairs and you are asked to check them to indicate your preferences. This is not a test of intelligence or special abilities. You just have to mark your responses in each box, considering both the occupations irrespective of the income or status involved in it.

For each pair of occupation, mark as follows:

Draw a circle around 1 (Judge) if you prefer the first in this pair of occupations.		1. Judge	2. Mountaineer
Draw a circle around 2 (Actor) if you prefer the second in this pair of occupations.		1. Missionary	2. Actor
Draw circles around both 1 and 2 (Physician and Poet) if you like both the occupations.		1. Physician	2. Poet
Cross out both 1 and 2 (Statistician and Dramatist) if you dislike both of them.		1. Statistician	2. Dramatist

Ask now if anything is not clear.

**DO NOT TURN THE PAGE UNTIL TOLD TO DO SO**

## **DEVELOPMENTAL SCREENING TEST (DST)**

Determining the developmental level of the child using DST

---

Subject Tester	age Date	sex Time	Education Referral
-------------------	-------------	-------------	-----------------------

**Instructions to use:** The tester starts with the item closest to chronological age of the child to establish a 'basal age'. This is the age at which all items are likely to be passed or the behavior described is likely to be present. Gradually tester moves through upper age levels. Each item could be evaluated either by observing the child (eg. head is steady, walks) or by asking the parent (comb hair by self) or by asking the child (repeat 3 digits).

In each age group, child should succeed in at least 60% of the items. The items marked with asterix \* in the form indicate items related to language development.
